

First in Math
After School Program

The *First in Math* program is back for any interested 4th-8th graders. It is an online program that enhances a students' foundational skills, procedural fluency, and reasoning skills. *First in Math* offers a range of skill sets- form one-step addition to multi-step algebra. The activities can include fractions, decimals, integers and exponents. Due to the carrying degree of difficulty, *First in Math* benefits and challenges students at all math levels. The program will be held in the Computer Room on **Tuesdays from 3pm-4pm with Ms. Gorman**

Parents must arrange to pick up their children promptly at 4pm. We can only accommodate 20 students total. Therefore, after all forms are passed in, 20 students will be randomly selected. If your student is interested in being apart of this unique online math program, please complete, remove, and turn in the bottom portion of this sheet. Once sign up is complete, a letter will go home to the *First in Math* students regarding the start date and welcoming them to the program.

The cost of first in math will be \$7. Please write checks payable to Our Mother of Consolation. Please send form and payment in by September 20, 2017.

Thank you,
Ms. Lauren Gorman
